Similar to the above, except that it takes you to the document recorded before or after it *with the same book type*. For example, a deed is recorded in book type "O". If the very next document recorded after it is a plat, (in book type "P") it would not be seen as the "next document" when using this tool.

If the document references the book/page or instrument # of another document recorded prior to or after it, clicking on the link will take you to that document.

RECORDS TAXES AND TREASURY DIVISION – RECORDS & SEARCH SECTIONS

The recording and search and copy sections are part of the Records Taxes and Treasury Division, which falls under the jurisdiction of the Board of County Commissioners in Broward County. Our functions are not directed by the Clerk of Courts in this county, as they are in most of the counties within this state.

Our Responsibility

Records Taxes and Treasury, Recording and Search and Copy Sections are charged with the responsibility of maintaining the Official Records for Broward County. In accordance with the Florida Statute 28.222 we record documents as presented to us, which meet the recording requirements in accordance with the Florida Statutes, but we do not determine the legality or validity of those documents submitted to us.

WHAT IS RECORDED IN THE OFFICIAL RECORDS

Many of the documents presented for recording are submitted by the Clerk of Courts. However, not all court documents are recorded. When a person sells a home, they record a deed with our office reflecting the transfer to the new owner. The chain of ownership serves as proof that the new owner has the rights to the property. When a “wild deeds” is recorded an outsider appears on the property, clouding that chain of ownership and causing problems when it comes time for the owner to sell the property.

According to the FBI, the new domestic terrorists are referred as “sovereign citizen”. The sovereign citizen movement is flooding the land records world, with a brand of terrorism called paper terrorism. The self-described “sovereign citizen” take the position that they are answerable to only common law and are not subject to any statutes or proceedings at the federal, state or municipal levels, they do not recognize U.S. currency and that they are “free of any legal constraints.” There are some individuals that harass and retaliate against persons for carrying out their constitutional duties in upholding the laws of the State of Florida, by filing false and fraudulent claims of liens. The document(s) filed are completely bogus and claim phony security interests in a person’s residence(s). Getting these liens resolved is a financial nightmare for the individual these liens are against. Filing bogus and frivolous liens with the intent to financially damage a person is simply unacceptable and must be expeditiously resolved.

The Recording office has a ministerial duty to record these “documents” under the Florida Statutes, and does not have any discretion. Your due diligence is necessary in searching our Official Records, so that your ownership rights are protected from any of these types of documents that may be recorded and affecting you. To determine if a specific document has been recorded, please visit our Official Records website frequently, www.broward.org/records.

REPORT SUSPECTED FRAUDULENT ACTIVITY

Should you find that a wild deed or fraudulent document has been recorded against you and/or your property, I encourage you to seek the advice of a licensed attorney and report any suspected fraudulent activity to the local law enforcement authority.

Records Taxes and Treasury Division will continue to work with the law enforcement agencies, economic crimes unit and the States Attorney’s Office to resolve issues regarding recording fraudulent, bogus and frivolous documents in the Official Records.
